In-Wall Carrier System for Almost All Wall-Hung Washbasins

The Geberit in-wall system makes it easy to safely and securely install wall-hung lavatories of almost any size. Engineered for long life and reliability, the Geberit in-wall system is built on a rugged steel frame. Geberit lavatory carriers feature easy-to-adjust height and rod locations to match a wide variety of washbasins: there's no need to buy a specific carrier for your sink. Using a minimum of standard tools, the Geberit system easily attaches to wood or steel wall framing studs.

Express your sense of style. Find out more about the Geberit lavatory system at → geberitnow.com/resources
