

GEBERIT SOLUTIONS IN THE ASPEN HOME

ELEVATING DESIGN

INTEGRATING LUXURY WITH NEXT LEVEL TECHNOLOGY

In the picturesque environs of West Aspen, Michael Bennett Homes constructed a stunning Mountain Contemporary home, celebrated in the Wall Street Journal for its seamless fusion of high-end design and cutting-edge technology. The primary aim was to create a retreat home that harmonized with its natural surroundings, offering unobstructed views and a luxurious yet sustainable living experience.

→ CLIENT REQUIREMENTS:

The initial owner envisioned a retreat home in Aspen that could comfortably accommodate large group gatherings while maintaining a sense of intimacy and relaxation. They sought to seamlessly integrate the interior with the surrounding mountainous landscape, incorporating unique materials sourced globally and cutting-edge technology to elevate the living experience. Key priorities included maximizing panoramic mountain views, creating 10 bathrooms for guest convenience, and designing an outdoor living area conducive to relaxation and entertainment.

→ CHALLENGES FACED:

Crafting a layout that catered to group events without compromising intimacy was a significant challenge. Additionally, maximizing mountain views and seamlessly integrating them into the interior spaces required innovative solutions. The design aimed to balance luxury with sustainability, necessitating careful selection of materials and technologies.

→ GEBERIT INNOVATIONS COMPLEMENT STYLE:

Geberit in-wall systems for wall-hung toilets perfectly complemented the modern aesthetics in this home with eight full bathrooms and three powder rooms. Geberit's commitment to design and functionality made it the preferred choice for Michael Bennett Homes, aligning with their standards of luxury living.

→ RESULTS AND IMPACT:

The integration of Geberit solutions contributed to the stylishness and sustainability of the residence, reflecting the synergy between Michael Bennett Homes' architectural vision and Geberit's innovative bathroom design principles. The collaboration showcased how high-end residential projects could prioritize both aesthetics and functionality, setting a standard for luxury living in Aspen.

→ GEBERIT SOLUTIONS INTEGRATION:

Among the innovative solutions integrated into the Aspen Home were the Geberit Duofix in-wall system with Sigma concealed tank and Sigma70 dual-flush actuator plates for sustainable water savings.

The Duofix in-wall installation system accommodates a number of compatible toilets to provide a clean look with more room in the bathroom, easy cleaning, and improved accessibility. The superior function of the Duofix carrier with proven Geberit fill and flush valves eliminates parts that fail in typical toilets. The Duofix carrier frame installs in either steel or wood stud construction.

The Sigma70 actuator offers a sleek, frameless design with a wide variety of finishes, including black glass, to complement the home's aesthetic. Sigma70 features large and small flush buttons for easy, intuitive water savings, light-touch pneumatic operation, and simple cleaning, enhancing the overall bathroom experience.

→ RESULTS AND IMPACT:

The integration of Geberit carriers and flush plates contributed to the luxurious and sustainable design of the Aspen Home, aligning with Michael Bennett Homes' commitment to excellence. The Duofix carrier is built to last the lifetime of the home. While the Sigma70 flush plates not only enhance functionality but also elevate the bathroom aesthetics, reflecting the homeowner's discerning taste and appreciation for architectural design.

→ GEBERIT INNOVATES FOR APPEAL AND FUNCTION:

Geberit continues to innovate with updates to the Sigma70 flush plate, including a sleek, frameless design and a wide variety of finishes, to suit different design preferences. The new version maintains water-saving dual-flush and further enhancing the bathroom's visual appeal and functionality.

→ CONCLUSION:

The Aspen Home by Michael Bennett Homes stands as a testament to the seamless integration of high-end design, cutting-edge technology, and sustainable principles. Through the incorporation of Geberit solutions, the residence exemplifies luxury living while maintaining a commitment to freshness, hygiene, and environmental responsibility. As Aspen continues to attract affluent buyers, properties like this set a new standard for mountain retreats, combining opulence with innovation for the ultimate living experience.
